HELICON PHANTOM

The HELICON IW 200 PHANTOM (IW for In-Wall) was developed following the immediate success of the EUPHONIA PHANTOM In-Wall speaker had become apparent.

The HELICON PHANTOM incorporates not only the experience and know-how from the EUPHONIA PHANTOM, but makes available the already celebrated award-winning technology and sound from the HELICON Series.

The HELICON PHANTOM is a 2-way speaker with a 6½" woofer/midrange and the DALI Hybrid Tweeter Module. HELICON PHANTOM comes in an aluminum sealed non-resonant enclosure and includes a painting mask and a cutout template.

The DALI HELICON PHANTOM in-wall loudspeaker is the In-Wall speaker for the demanding listener who requires a discrete interior design matched with superior HELICON sound.

SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	64,0 - 27.000,0
Sensitivity (2,83 V/1 m) [dB]:	89,0
Nominal impedance [ohms]:	8
Maximum SPL [dB]:	107,0
Recommended amplifier power [W]:	30,0 - 150,0
Crossover frequencies:	3.000/13.000
Hybrid tweeter module, Super high frequency driver:	Ribbon
Hybrid tweeter module, High frequency driver:	Soft textile dome
Low frequency driver:	Wood fibre cone
Enclosure type:	Closed box
Connection input(s):	Single wire
Loudspeaker type:	In-Wall ;On-Wall
Magnetic shielding:	No
Max loudspeaker dimensions incl. base and grille	480 X 285 X 110
Loudspeaker weight including base and grille [kg]:	7,0
